

## USB Extender

Extend 45M / 150ft. From computer to any USB device

The USB Extender is an easy to use hardware solution that extends any USB peripheral device from a host computer to a distance of 45M / 150ft.

The USB Extender overcomes the 5M/16ft. distance limitation of direct USB connection to the host computer, using standard CAT5 cable.

- Applications are limitless - Security Cameras, Barcode Scanners, Printers, Scanners etc.
- Overcomes the USB distance limitation - extends up to 45M / 150ft.
- Pure hardware, requires no external power adapter.
- 100% compatible with any USB device, compliant with USB1.1 standard.
- No additional software required for either computer or peripheral device.
- Embedded USB transceivers at both ends to prevent signal loss.

**Extend USB to 45m**

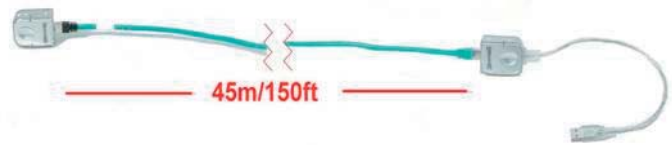

**Minicom 3 year warranty**

# USB Extender

Multifunctional system with three user options

Micro Sized - Small Form Factor  
Plug and Play Installation

Overcomes the USB 5M / 16ft. distance  
limitation - extends up to 45M / 150ft.

## Specifications

### System

Master Unit	Upstream Port	USB Type A Male
	Downstream Port	RJ45 Connector
Remote Unit	Upstream Port	USB Type A Female
	Downstream Port	RJ45 Connector
Master Built-in Cable Length	0.3 meters / 1.0 Feet	
Interconnect Cable	Standard Category5/5e/6 Network Cable	
Max Cable Length	45 meters / 150 feet	
Supply Current Drawn	20mA	
Operating Temperature	0°C to 40°C / 32°F to 104°F	
Storage Temperature	-40°C to 85°C / -40°F to 185°F	
Certification	FCC ClassB, CE
